

PROFESSIONAL SUMMARY

Pragmatic **Full-Stack Developer** and final-year medical student with hands-on commercial experience architecting secure backend domain logic, high-performance web applications, and real-time platforms. Proven track record in B2B FinTech (Supply Chain Financing) and HealthTech/EdTech platforms using **React 19, TypeScript, Next.js, and Laravel 11**. Experienced in designing Maker-Checker state machines, RESTful APIs, and concurrency-safe workflows across DEV, SIT, and UAT environments.

TECHNICAL SKILLS

Frontend: React 19, Next.js, TypeScript, JavaScript, Tailwind CSS v4, Vue.js, Vite	Backend & API: PHP 8+, Laravel 11, WebSockets (Reverb), RESTful APIs, Node.js, JWT	Databases & DevOps: MySQL, PostgreSQL, Docker, Git CI/CD, Linux, Postman
---	---	---

WORK EXPERIENCE

Full-Stack Developer • Central_Nex Software House	Dec 2025 – Present
Core backend developer in a 2-person engineering team for a commercial Enterprise Supply Chain Financing (SCF) digital banking platform (Laravel 11, PHP 8+, MySQL, Flutter, WebSockets, Docker, Git CI/CD).	
- Architected multi-tier Maker-Checker governance state machines (Entry, Amend, Resend, Approve, Reject, Reversal, Close) with atomic audit trails. - Implemented concurrency-safe facility limit calculations and real-time WebSocket broadcasting via Laravel Reverb. - Led end-to-end RESTful API testing, defect resolution, and deployment coordination across DEV, SIT, and UAT environments.	
Full-Stack Developer • Freelance	Jan 2025 – Present
Engineered and deployed dynamic full-stack web applications, custom PHP/Laravel backends, and responsive modern user interfaces tailored to client business workflows.	

FEATURED PROJECTS

Enterprise Supply Chain Financing (SCF) Platform	Laravel 11 • MySQL • Reverb	Commercial B2B
B2B invoice discounting and credit facility management system for corporate anchors and suppliers. Engineered state-machine transaction workflows, audit trail rollbacks, and instant cross-platform synchronization.		
Synapse Study – Medical Education Platform	Live Demo Code	React 19 • Tailwind v4
High-performance learning tool for medical students with interactive 3D flashcards, clinical summary dashboards, timed 5-choice practice exams with auto-submit timers, and 1-click certificate export.		
Pharmacy Management System	Frontend Backend	React • Laravel • JWT
Full-stack pharmacy management platform automating inventory alerts, sales analytics, medicine categories, and order tracking with JWT authentication and role-based access control (RBAC).		

EDUCATION

Advanced Diploma in Computing	2025 – 2026
NCC Education • Software Engineering, Networks, Databases	
Diploma in Computing	2024 – 2025
NCC Education • Programming, Web Design, Computer Systems	
M.B., B.S. (Final Year)	Expected Nov 2026
University of Medicine 2, Yangon	

KEY CERTIFICATIONS

Complete React v9	Frontend Masters
Next.js Fundamentals v4	Frontend Masters
React & TypeScript v3	Frontend Masters
Intermediate React, v6	Frontend Masters
JavaScript Essentials 1 & 2	Cisco
